

Information Technology (IT) Policy

Document Owner: IT Security & Infrastructure Team **Effective Date:** January 1, 2025 **Applies To:** All employees, contractors, and interns of NimbusTech Solutions Pvt. Ltd.

1. Purpose

This policy establishes rules for the acceptable use of company IT assets, including laptops, email, software, and network resources.

2. Asset Allocation

- Every employee is issued a company laptop within **5 working days** of joining.
- Laptops remain company property and must be returned within **3 working days** of separation.
- Employees are responsible for the physical security of allocated devices.

3. Password Policy

- Passwords must be at least **12 characters** long and include uppercase, lowercase, numeric, and special characters.
- Passwords must be changed every **90 days**.
- Multi-Factor Authentication (MFA) is mandatory for all company accounts, including email, VPN, and internal applications.
- Passwords must never be shared, written down, or reused across systems.

4. Software Installation

- Only software approved by the IT department may be installed on company devices.
- Requests for new software must be raised via the IT Service Desk and are typically reviewed within **2 business days**.
- Use of unlicensed or pirated software is strictly prohibited.

5. Email and Internet Usage

- Company email must be used primarily for business purposes.
- Employees must not open attachments or links from unknown or suspicious senders.
- Any suspected phishing email should be reported to **security@nimbustech.example.com** immediately using the “Report Phishing” button in Outlook/Gmail.
- Excessive personal use of the internet during work hours may result in disciplinary action.

6. Data Security

- Confidential company data must not be stored on personal devices or personal cloud storage accounts (e.g., personal Google Drive, Dropbox).
- All laptops are encrypted by default using BitLocker/FileVault.

- USB storage devices are disabled by default; exceptions require IT Security approval.
- Employees must lock their screens (Windows+L / Cmd+Ctrl+Q) when stepping away from their desks.

7. Remote Work and VPN

- Employees working remotely must connect to company systems via the corporate VPN at all times.
- Public Wi-Fi networks should be avoided for accessing company resources; if unavoidable, VPN must be active.

8. Incident Reporting

- Any lost or stolen device must be reported to IT Security within **1 hour** of discovery.
- Suspected data breaches must be reported immediately to **security@nimbustech.example.com** and the Data Protection Officer.

9. Bring Your Own Device (BYOD)

- Personal devices used to access company email or applications must be enrolled in the Mobile Device Management (MDM) system.
- IT reserves the right to remotely wipe company data (not personal data) from enrolled devices in case of loss, theft, or separation.

10. Non-Compliance

Violations of this IT Policy may result in disciplinary action up to and including termination of employment, depending on the severity of the breach.
